See National Interagency Mobilization Guide.

62.3.2 - INTERAGENCY FIRE USE MODULE MOBILIZATION.

See National Interagency Mobilization Guide.

62.4 - SMOKEJUMPERS. See National Interagency Mobilization Guide.

With the exceptions noted below, all Great Basin units will order smokejumpers from the appropriate Great Basin Coordination Center via established dispatch channels.

62.4.1 - NUMBERS. See National Interagency Mobilization Guide.

62.4.2 - SMOKEJUMPERS GEAR WEIGHTS AND VOLUME.

See National Interagency Mobilization Guide.

62.4.3 - GREAT BASIN SMOKEJUMPER BASES.

62.4.3.1 - McCALL SMOKEJUMPER BASE (USFS). Normally staffed with 70 smokejumpers. Dispatch centers that can order direct are the Boise Interagency Logistics Center, Central Idaho Interagency Fire Center, South Central Idaho Interagency Dispatch Center, Nez-Perce National Forest and the Wallowa-Whitman National Forest.

In order to maintain the flexibility of responding to several concurrent requests, the standard DC-3 load will remain at 12 jumpers. However, the aircraft will be equipped with standard cargo for 16 smokejumpers, plus a Hale Fry pump with 1,000 feet of hose.

If the need exists for more than 12 jumpers, e.g., multiple fires requiring 4-6 jumpers each, or an emerging fire that could require 14-16 jumpers, a special request for this larger load can be made with no delays in the departure time.

A full 20-person smokejumper crew can be delivered to an incident where a Type 1 Crew is needed. The 20-person crew request should be used in situations where all 20 jumpers would be dropped in the same location. This 20-person crew is equipped to be self-sufficient for 2 days. No pump or hose is included with this load. Concurrence of the National Interagency Coordination Center must be obtained prior to use of smokejumpers as a Type 1 Crew. See National Interagency Mobilization Guide.

62.4.3.2. - BOISE SMOKEJUMPER BASE (BLM). Normally staffed with 86 smokejumpers. The primary mission of the BLM Boise Smokejumpers is to provide wildland fire services to BLM and interagency land managers.

Nevada, Utah, Idaho and Colorado have a contingent of twelve (12) smokejumpers available to them after they have been activated.

The De Havilland DHC-6 Twin Otter will be the primary aircraft utilized by the Boise smokejumpers. The normal configuration for this aircraft is eight (8) smokejumpers with gear plus one (1) pilot and one (1) smokejumper spotter, both of whom stay with the aircraft.

Other aircraft used, BLM Alaska or USFS, will be pre-positioned to maximize mission effectiveness.

Additional smokejumpers or aircraft ordered to supplement base operations in Boise will be coordinated by the WGBCC.

Utilization of BLM Boise smokejumpers will be overseen by the BLM Fire Operations Group Manager.

62.4.3.3 - WEST YELLOWSTONE SMOKEJUMPER BASE (USFS). The West Yellowstone, Wyoming jump base is normally staffed with 15 smokejumpers. Units that can order direct are Eastern Idaho Interagency Fire Center and Teton Interagency Dispatch Center.

62.4.3.4 - MISSOULA SMOKEJUMPER BASE (USFS). There are normally 60 smokejumpers located at Missoula, MT. The Salmon Interagency Dispatch Center can order direct.

62.4.3.5 - GRANGEVILLE SMOKEJUMPER BASE (USFS). There are normally 30 smokejumpers located at Grangeville, ID. The Payette Dispatch Center can order direct.

62.5 - PILOTS - LEADPLANE AND SMOKEJUMPER.

63.1.2.3 - CURRENT-YEAR TYPE 1 TEAM MEMBERS . Current-year team member rosters for the Great Basin/Rocky Mountain Type 1 Incident Management Teams are listed on the following websites:

<http://gacc.nifc.gov/egbc/logistics/overhead/overhead.htm>

<http://gacc.nifc.gov/rmcc/logistics/overhead.htm>

63.1.3 - GREAT BASIN TYPE 2 INCIDENT MANAGEMENT TEAMS. There are six Type 2 Incident Management Teams in the Great Basin. The Incident Commanders for these teams are:

Jerry Brunner	Internet: gbrunner@fs.fed.us
Elizabeth Lund	Internet: elund@fs.fed.us
Merrill Saleen	Internet: Merrill_Saleen@nifc.blm.gov
Tom Suwyn	Internet: tsuwyn@blm.gov
Jim Thomas	Internet: jthomas@fs.fed.us
Mike Whalen	Internet: mwhalen@nv.blm.gov

See Section 22.5.A for specific guidelines, requirements, and operating procedures.

63.1.3.1 - CURRENT-YEAR ROTATION. The Great Basin Type 2 Team rotation and call-out schedule will start May 19, 2006 and continue through October 5, 2006. Each on-call period will begin at 0001 Hours Friday (Mountain Time) and continue through Thursday at 2400 Hours (Mountain Time).

All teams will adhere to the two-week rotation period. Teams are mobilized on a first, second and third team out basis. Once a team is mobilized or if a team is unavailable, the next team in order of rotation will assume their position until they are mobilized or the rotation period ends. If a team is released to their home unit, has time left in rotation period and are available, they will enter the rotation in the third or last position.

If all three teams in rotation are mobilized, additional orders for Type 2 Incident Management Teams will be placed with NICC. During periods of high fire activity, the Great Basin Coordinating Group may approve early activation of Great Basin teams not in rotation.

The response time for “on-call” teams can be set by the coordination centers based on planning levels and predicted activity. For example, at the beginning of the season, the teams may be placed on an eight-hour call up instead of the normal two-hour call up during the height of the fire season.

Alternate methods of filling team positions, other than the Command and General Staff, can be utilized providing this is pre-identified and closely monitored. Positions may be shared by qualified people. Positions may be assigned to a department or agency to fill that has a “pool” of qualified people. It is critical that dispatch and coordination centers know the method being used, and coordinate any changes.

Priorities for filling positions will be:

1. Agency or department employees
2. Emergency Fire Fighter (EFF, non-retiree) below the Command and General Staff level only
3. Emergency Fire Fighters (EFF), retirees, utilized primarily as “coaches” to develop trainees into any position
4. Service contract, subject to National Wildfire Coordinating Group (NWCG) restrictions
